

### SCHOOL HIGHLIGHTS

The guiding philosophy of the Westside Preparatory Charter is that all students have the right to feel safe, secure, valued, wanted and successful. Academic excellence is through a challenging curriculum providing the support for each student to reach their intellectual potential. Our students will be responsible, productive citizens of society with self-directed expectations and a sense of community, willing to give and share their talents and resources. They are all accountable for their actions. All adults believe that students can develop morally, intellectually and socially to their fullest potential.

Our charter school provides an alternative to the traditional junior high school experience. This school is for students and parents who want higher academic standards, a smaller school environment, accountability for the students and consistent communication with parents.

Our curriculum is teacher-driven and student-centered, and our teachers provide individualized attention to students. We have a block schedule. We have a variety of rigorous programs such as AH-HA Vocabulary, TCI History, and Project Lead the Way (PLTW). We follow the California State Content Standards and focus on helping students think critically, collaborate with others and cultivate communication skills.

- Parents can access grades online
- Extra math support
- Schoolwide PE program
- Field study days and community service hours

### EXCELLENCE IN EDUCATION

At WPCS, we have a high level of community service, 1:1 technology, and a high level of parent participation. Our experienced teachers have an average of 20 years of experience. We have ongoing teacher professional development and conferences to improve skills and techniques.
