

SCHOOL HIGHLIGHTS

Westside Elementary encourages students to reach their full potential through a caring, safe, and respectful learning environment. Our staff of excellent educators supports students in developing 21st-century skills such as critical thinking, creativity, communication, and collaboration. We value and support your children's academic, personal and social well-being! Westside Elementary strives to be a community of lifelong learners with the support of parents, community, staff, and peers. Westside provides a safe, friendly and caring environment where students will flourish, take risks, become secure and grow in knowledge, confidence, love and respect. Our families are an integral part of our school and contribute to success through our partnerships. Classroom teachers welcome volunteers. Our School Site Council (SSC) and English Learners Advisory Committee (ELAC) provide an important voice in our school plan and decisions on how to help our students.

EXCELLENCE IN EDUCATION

Westside Elementary prides itself as a community of life-long curious learners! Our staff collaborates with each other and educators to further the achievement of our students. All students learn technological skills to prepare for their future. Interventions are available for students who need extra help, either through staff or innovative, research-based technology. Students receive differentiated instruction daily through What I Need (WIN) time. Teachers and support staff use multiple forms of assessments and professional expertise to make sure that students receive the correct extra support they need. Teachers and staff are constantly collaborating to plan for the best academic schedule for each of our students.

NOTABLE ACCOMPLISHMENTS

Westside students enjoy the visual and performing arts in many ways. Classroom teachers integrate the arts into their instruction. Schoolwide 'Sing' brings joy each week for our children. Art specialists come to every class weekly, with a music teacher teaching our intermediate grades and a visual arts teacher teaching our primary children. Westside has received the following recognitions:

- Bronze-level PBIS School
- California Gold Ribbon School and Title 1 Academic Achievement Award
- Silver Level USDA Healthier US Schools
- Two-time Title 1 High Achieving School
- Distinguished School

ENRICHMENT PROGRAMS

Fostering a positive, friendly and welcoming environment, Westside has many programs in place which includes a class buddy program, monthly student achievement recognition, literacy night, Lunch with a Loved One and Grandparents' Day.

Westside is home to a BRIDGE (Building, Restoring, Initiating, Developing, Growing, and Empowering) class for students with disabilities. Our Expanded Learning after school program provides after school recreation, homework help and enrichment for Westside children. These services are free to families and enhance our students with literacy, technology, sports and tutoring. Staff also provide after school tutoring as needed. Field trips and assemblies bring new learning experiences to our children. Family events encourage family learning for all.

Additionally, we offer after school enrichment opportunities and intervention programs. Our Parent Teacher Association (PTA) works with staff on family events that bring us all together with various events throughout the school year. Community partners also contribute to our school in many ways, such as classroom presentations and donations. We appreciate all of the involvement and encourage everyone to participate.
