

SCHOOL HIGHLIGHTS

Smythe Academy provides a safe, caring environment that highlights the arts and sciences. The curriculum for students includes weekly art and music instruction, hands-on science lab experiments, and numerous outside programs: tutoring, Gifted and Talented Education (GATE), CREST, league sports, choir, and a strong MASTERS after school program. Smythe also offers family education opportunities such as community-based English classes for adults through TRUSD Adult Education, CAASPP for parents, infant/toddler parenting classes, and evening events like Coffee with the Principal and science, reading, and art nights. While we certainly have amazing teachers, the power of what happens in the classroom comes from the strength of individual teachers working as part of a team, connecting teacher strengths with student needs and working collaboratively to talk about teaching and learning, all with the goal of improving the academic achievement of our students.

EXCELLENCE IN EDUCATION

- 100% of our faculty are credentialed, highly qualified teachers
- Full-time accredited counselor
- Amazing, hardworking, and dedicated teachers who really believe in kids and build relationships
- CAASPP scores: In ELA and math, 36.59% and 29.64% of our students met or exceeded the standard during the 2022-23 administration of the CAASPP, respectively. These rates exceeded the district rates for ELA and matched district rates for math
- Weekly art and music classes
- Full-time science teacher that engages students in biweekly, hands-on lab experiences where they are being introduced to the Next Generation Science Standards
- Competitive, community-judged Science Fair program engaging all students in the scientific method
- One computer for every student, providing ample technological opportunities for success in the 21st century
- Breakthrough Sacramento and Academic Talent Search promote a college-going culture that allows students to take classes on the CSUS campus
- Small group intervention supports targeted needs during the day and outside of the school day

NOTABLE ACCOMPLISHMENTS

- Expanded Learning Official Grant Winner 2022-2026
- USDA Healthier US Schools Silver Award 2022
- MASTERS Soccer League champions 2014-2017
- Silver award winner - California PBIS Coalition's Recognition Program 2021

ENRICHMENT PROGRAMS

- In-school field trips such as Effie Yeaw and Crocker Art
- School assemblies from the B Street Theater and other arts providers through our relationship with the Kennedy Center for the Arts program, "Any Given Child"
- Visiting artist program focusing on poetry, visual art and photography
- Missoula Theater Company Internship and play
- Sly Park science camp
- Exploratory classes in the arts and sciences
- CREST science class & STEM for girls
- MASTERS after school program
- MASTERS sports league: cheerleading, soccer, basketball, flag football, tennis, kickball
