January 9, 2013

Dear Parents and Students,

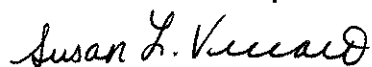

During the month of January, we will be surveying students at all levels and their parents regarding the issues of bullying in the schools. This is part of our outreach to determine how safe our students feel in their respective buildings. This is also part of our District Safe School Climate Plan. Surveys are anonymous and will be posted for the month of January. Principals in all buildings will be directing these efforts. Teachers will be helping our youngest students complete the surveys.

We are also looking for parent participation as well. The more parents that complete the survey, the better the data we have regarding the perception of bullying in our schools. This is the link to the survey: <https://www.surveymonkey.com/s/WCYKTYW>.

We will collate the data early in February and post the results on line. Any outcomes, based on the data, will also be posted. I will alert you, via the website, when the data is available.

Thank you for your participation.

Sincerely,

Susan L. Viccaro
Superintendent
