

SCHOOL HIGHLIGHTS

Garden Valley Elementary is a caring community dedicated to creating an academically rigorous, culturally sensitive, and positive learning environment for all students. We strive to help students become goal-oriented, critical thinkers who are dedicated to achieving the highest level of integrity and academic success. The teaching staff is highly trained and qualified to provide differentiated instruction to meet the diverse needs of our students.

You will find instructional strategies that are research-based and targeted to the state standards, as well as tiered intervention systems to provide powerful support and acceleration to all students. Now more than ever, we also want to be a support to all our students, not only in academics but also regarding their social and emotional health. We work hard to ensure that our students not only excel academically but are given the tools to meet their own personal social and emotional needs. Our staff works tirelessly to make each child feel important and valued and ready to face any challenges that lay ahead.

EXCELLENCE IN EDUCATION

Garden Valley provides learning opportunities to enhance student learning, encourage leadership, and success in academics. Students have many opportunities to work on writing and math projects using a variety of media and technology. We provide high-quality, first-time instruction and meaningful support to our students who require additional learning experiences. Teachers meet weekly to review data from instruction, adjust instruction, and design meaningful interventions when needed for our students. Progress monitoring is an integral part of developing learning opportunities in which all students learn daily.

NOTABLE ACCOMPLISHMENTS

The California Department of Education named Garden Valley Elementary as a 2022 California Pivotal Practice Award winner. Garden Valley is one of only four schools in Sacramento County to receive this honor. Garden Valley received the TRUSD PBIS Implementation at Gold Level in October 2023. Garden Valley was also one of 24 schools in Twin Rivers to receive the ENERGY STAR Certification for 2023.
